INDEPENDENT AUDITOR'S REPORT

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Lincoln County, Nevada, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5-13, budgetary comparison information on pages 55-66, Schedule of Funding Progress on page 67, Schedule of the County's Contributions to the Public Employees Retirement System of the State of Nevada on Page 68, and Schedule of the County's Proportionate Share of the Net Pension Liability Public Employees Retirement System of the State of Nevada on page 69 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

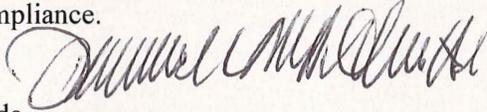

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

I also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the County's basic financial statements for the year ended June 30, 2014, which are not presented with the accompanying financial statements and I expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements as a whole. The combining and individual fund financial statements and schedules, for the year ended June 30, 2014, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2014 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the 2014 combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, I have also issued my report dated November 30, 2015, on my consideration of the County's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

**LINCOLN COUNTY, NEVADA
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2015**

As management of Lincoln County, Nevada we offer readers of Lincoln County, Nevada's financial statements this narrative overview and analysis of the financial activities of Lincoln County, Nevada for the fiscal year end June 30, 2015. The Management's Discussion and Analysis ("MD&A") introduces the financial reports for Lincoln County, Nevada. The MD&A is designed to give the reader an easy-to-understand overview of the County's financial position and results of operations for the year. The MD&A is separated into Financial Highlights, an Overview of the Financial Statements, and a Government-Wide Financial Analysis.

Financial Highlights

The County adopted new accounting guidance, GASB Statement No. 68 Accounting and Financial Report for Pensions and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date. These statements require the County to recognize its proportionate share of the net pension liability, deferred outflows and deferred inflows of resources, and related expenses from the County's participation in the Public Employees' System of the State of Nevada (PERS). The effect of implementing these statements resulted in a restatement of beginning net position.

The assets of the County exceeded its liabilities at the close of the 2015 fiscal year by \$34,935,437 (net position). Total net position represent approximately \$24,576,526 in capital assets, net of related debt, \$5,522,738 in assets restricted for debt services, capital projects, public works, and for other purposes. The remaining \$4,836,173 represents unrestricted net position, which may be used to meet the County's ongoing obligations to its citizens and creditors.

The government-wide net position of the County increased during the fiscal year 2015, \$2,123,253 before the restatement.

At the end of fiscal year 2015, the County's governmental funds reported combined fund balances of \$19,379,517, an increase of \$907,888 when compared to the previous year. Approximately 3.31% of this amount, \$641,361, is available for spending at the government's discretion (unassigned fund balance).

The County's primary revenue sources for governmental activities were ad valorem (property) taxes of \$3,638,786, capital grants and contributions of \$1,405,606, charges for services \$2,303,157, fuel tax of \$1,699,514, and consolidated taxes of \$1,343,274. These revenue sources comprised 27.21%, 10.51%, 17.22%, 12.71%, and 10.04% respectively, or 77.69%, of total governmental activities revenues. Business-type activities revenue from charges for services was \$3,315,385.

The County's total government-wide expenses were \$14,727,690. The greatest expenses were in the General Government \$3,672,456, Public Works \$2,123,984, and Public Safety \$2,074,268 functions. Business-type activities contributed \$3,311,168 to total expenses.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements which consists of government-wide financial statements, fund financial statements, and accompanying notes. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the County's assets and liabilities with the difference reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

**LINCOLN COUNTY, NEVADA
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2015**

Overview of the Financial Statements (Continued)

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

The government-wide financial statements report two types of activities: governmental activities and business-type activities. The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, public works, judicial, health and sanitation, welfare, community support, culture and recreation, and intergovernmental. The business-type activities include operations of its detention center, utilities and building department operations.

Fund Financial Statements. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains individual governmental funds. Information is presented separately in the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Road Fund, Federal in Lieu Tax Fund, County Grant Fund, Lincoln County Water District Water Resources Fund, and Lincoln County Land Act Special Use Fund, each of which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the combining and individual fund statements and schedules.

The County adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement is provided for each of the County's governmental funds to demonstrate compliance with the budget. The budgetary comparison statements for the major governmental funds are presented as required supplementary information; the budgetary comparison statements for all other governmental funds are included in the fund financial statements accompanying information.

Overview of the Financial Statements (Continued)

Proprietary Funds. The County maintains one type of proprietary fund, the Enterprise Fund. The Enterprise Fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses the Enterprise Funds to account for its utility activities, building department activities, and operation of the detention center.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the utility funds, building department and detention center. The Detention Center and Pioche Public Utility Sewer are considered to be major funds of the County.

Fiduciary Funds. Fiduciary funds are used to account for the resources held for the benefit of parties outside of the government; Fiduciary funds are not reported in the government wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The County has one type of fiduciary fund, the Agency fund. The Agency Fund reports resources held by the County in a custodial capacity for individuals, private organizations and other governments.

Notes to Financial Statements. The notes to the financial statements provide additional information that is essential to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide other post-employment benefits to its employees; and schedules of budgetary comparisons for both the original and final budgets of the General Fund and the various other major County funds.

The combining statements and individual fund schedules referred to earlier in connection with the nonmajor governmental funds are presented immediately following the required supplementary information.

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. Assets exceeded liabilities by \$34,935,437 as of June 30, 2015, and by \$42,835,166 as of June 30, 2014, a net decrease of \$7,899,729, or 18.44%. The large decrease is due to a prior year restatement due to new GASB requirements.

A portion of the County's net assets, 70.35%, reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, etc.), net of any related debt outstanding used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

The County's restricted net assets of 15.81% represents resources that are subject to external restrictions on how they may be used.

The remaining portion of the County's net assets, 13.84% are unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

At June 30, 2015, the County had positive balances in all three categories of net assets, both for government as a whole, as well as for separate governmental and business-type activities.

Program revenues include charges for services, fines and forfeitures, certain licenses and permits, and both operating and capital grants and contributions. General revenues consist of taxes, rent, interest, and miscellaneous.

For general revenues, the largest of these revenues, ad valorem taxes, increased by \$810,149, or 28.64%. The next largest revenue, fuel taxes, increased by \$32,172, or 1.93%, due to increased economic activity in the local economy during the fiscal year 2015. The largest business-type activities revenue came from charges for services related to the utility, detention center, and building department. They decreased \$106,618, or 3.12% due primarily to a decrease in inmate fees.

Financial Analysis of the County's Governmental Funds

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds.

As of the end of the current fiscal year, the County's governmental funds reported a combined ending fund balance of \$19,379,517, an increase of \$907,888, or 4.92%, from the prior year. Fund balance components have been classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed on the use of the resources of fund. Restricted fund balance is \$5,492,336, or 28.34% of total. Spending of these resources is constrained by externally imposed (statutory, bond covenant, or grantors) limitations on their use. The largest restricted fund balances include \$856,873 for multi-species conservation, \$1,290,728 for capital projects, and \$1,477,627 for public works.

Committed and assigned fund balances combined to represent 67.86% of total fund balance with spending constrained by either the Board of County Commissioners (for committed) or senior management (for assigned). Committed balances in the special revenue funds are primarily due to revenues directed by the Commission to those funds to support programs. The largest committed fund balances include \$4,786,054 for the Lincoln County Water District and \$4,050,520 for land act.

Major Funds

General Fund (Budgetary Basis): The General Fund is the chief operating fund of the County. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$641,361. The General Fund revenues increased by \$667,765, or 15.55%. Taxes increased by \$458,237, or 20.91% due to increases in taxes received for construction in progress tax and possessory use taxes. Charges for services increased \$55,351, or 14.80% due to increased assessor commissions. Intergovernmental revenues increased \$12,854, or 0.91% due to an increase in grant and consolidated tax revenues.

Expenditures increased by \$316,279, or 7.83%. General government expenditures increased by \$165,508, or 11.71% due to an increase in other general expenses for professional fees. Public safety expenditures increased by \$68,313, or 4.14% due to an increase salaries and benefits expenditures for the sheriff's department.

Road Fund: The Road fund expenditures increased by \$702,936 or 50.15%. This increase was due to an increase in capital outlay for equipment purchases made with capital lease proceeds.

Federal in Lieu Tax Fund: The Federal in Lieu Tax Fund revenues increased by \$135,615, or 16.52%. This increase was due an increase of grant monies and federal in lieu tax. Expenditures increased by \$212,617, or 41.57%, due to general government expenditures, public works projects and public safety expenditures.

County Grant Fund: The County Grant Fund revenues decrease by \$252,651, or 11.19%, and expenditures decreased by \$252,994, or 11.21%. These decreases were due to receiving less grant monies in the current year.

Lincoln County Water District Water Resources Fund: The Lincoln County Water District Water Resources Fund revenues increased by \$10,345, or 32.71% from the prior year. This was due to an increase in investment income.

Lincoln County Land Act Special Use Fund: The Lincoln County Land Act Special Use Fund revenues increased by \$18,191, or 61.27% from the prior year. This was due to receiving building rental income from tri-county weed and an increase in investment income.

Enterprise Funds

Enterprise Funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the enterprise funds was a deficit of \$1,979,862. Total net position for these funds decreased by \$3,074,281 from the prior year due to the net pension liability restatement for GASB 68.

The **Detention Center Fund**, a major fund, had operating revenues decrease by \$71,632, or 2.91% due to a lower number of inmates during the year. Expenses increased \$96,450, or 4.55% due to an increase in salaries and benefits.

The **Pioche Public Utility Sewer Fund**, a major fund, had operating revenues decrease by \$2,800, or 3.23% during the year. Operating expenses increased \$9,250, or 9.46% due to an increase in salaries and benefits and service and supplies.

General Fund Budgetary Highlights

The original budget (2014-15 Final Budget) was approved May 19, 2014.

Original budget compared to final budget. During the year there was no need for any significant amendments to increase either the original estimated revenues or original budgeted appropriations. However, there was a need to make an amendment to reallocate appropriations among departments when it became clearer which departments would actually be charged for certain expenses. Generally, the movement of the appropriations between departments was not significant.

Final budget compared to actual results. The most significant differences between estimated revenues and actual revenues for the General Fund were as follows:

Overall the revenues received were more than budgeted by 5.91% or \$276,980. Revenues in excess of budgeted amounts were received for taxes 3.65%, licenses and permits 29.47%, intergovernmental 7.05%, charges for services 13.02%, and miscellaneous revenues 411.46% more than budgeted. The shortfall in revenue sources were for fines and forfeitures 6.19%.

A review of actual expenditures compared to the appropriations in the final budget shows expenditures were \$241,876 less than budgeted or 5.26%. Expenditures were under budget for all functions of the General Fund general government 8.73%, health and sanitation 12.82%, judicial 5.39%, and public safety 0.21%.

The County's debt decreased, by \$1,325,868, for governmental activities during the current fiscal year. The reason for the decrease was a decrease in net pension liability due to new GASB requirements and a reduction in outstanding debt due to principal payments.

The County's debt decreased, by \$749,311 for business-type activities during the current fiscal year. The reason for the decrease was a decrease in net pension liability due to new GASB requirements, annual bond payments and an increase in compensated absence liability.

Per Nevada Revised Statute Chapter 244A.059, the debt limitation for the County is equal to 10 percent of the assessed valuation of property, excluding motor vehicles for the current year. The debt limitation currently applicable at June 30, 2015 was \$34,251,466.

Additional information on the County's long-term debt can be found in **(Note D7)**.

LINCOLN COUNTY, NEVADA
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
June 30, 2015

Total fund balance - governmental funds **\$ 19,379,517**

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets, net of the related depreciation are not reported in the Governmental Funds financial statements because they are not current financial resources, but they are reported in the Statement of Net Position. 23,129,999

Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds. 35,055

The County's proportionate share of net pension assets and liabilities as well as pension-related deferred outflows and deferred inflows of resources are recognized in the government-wide statements and include:

Deferred outflows from pension activity	843,023
Net pension liability	(6,009,238)
Deferred inflows from pension activity	(1,571,776)

Certain liabilities (such as bonds payable and capital leases payable) are not reported in the Governmental Funds financial statements because they are not due and payable, but they are presented as liabilities in the statement of net position. (905,048)

Total net position - governmental activities **\$ 34,901,532**

LINCOLN COUNTY, NEVADA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2015

Net Change in Fund Balance - Governmental Funds **\$ 907,888**

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over the estimated useful lives as annual depreciation expenses in the Statement of Activities. 1,268,941

Property taxes that are collected in the time to pay obligations of the current period are reported as revenue in the fund statements. However, amounts that related to prior periods that first become available in the current period should not be reported as revenue in the Statement of Activities. (17,296)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. (195,409)

Net differences between pension system contributions recognized in the fund statement of revenues, expenditures, and changes in fund balances and the statement of activities.

Pension contributions made after measurement date (2015 contributions). 843,023
 Net pension expense. (788,171)

Generally, expenditures recognized in fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the Statement of Activities when incurred. (51,581)

Change in net position of governmental activities **\$ 1,967,395**

The notes to the financial statements are an integral part of this statement.

LINCOLN COUNTY, NEVADA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

1. Reporting Entity

Lincoln County, Nevada, is governed by an elected five member board. As required by generally accepted accounting principles, these financial statements present Lincoln County, Nevada (the primary government), and its component units. Blended component units, although legally separate entities are, in substance, part of the County's operations. Thus, blended component units are appropriately presented as funds of the primary government.

2. Blended Component Units

Component units are legally separate organizations for which the County is financially accountable. Lincoln County Water District, Alamo Town, Panaca Town, and Pioche Town, are all component units that are part of the County's reporting entity because the County is financially accountable for these entities. Financial accountability is determined primarily by the fact that as the governing body, the County's Board of Commissioners can impose its will on significant aspects of the operations of these entities. These entities are presented as blended component units since the operations of these entities are considered part of County operations.

3. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the County and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

4. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the County's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds (enterprise funds), and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The Statement of Net Position presents the consolidated financial position of the County at year-end, in separate columns, for both governmental and business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or programs are offset by program revenues. Direct expenses are those that are specifically associated with a program or service and are, therefore, clearly identifiable to a particular function. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other revenues properly not included among program revenues are reported instead as general revenues. This statement provides a net cost or net revenue of specific programs and functions within the County. Those functions with a net cost are generally dependent on general-purpose tax revenues, such as property tax, to remain operational.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary (enterprise), and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

General Fund - The General Fund is the County's primary operating fund. It accounts for all financial resources of the general County, except those accounted for in another fund.

Road Fund - The Road Fund is used to account for gas tax revenues allocated for the construction, repair and maintenance of County roads.

Federal in Lieu Tax Fund - The Federal in Lieu Tax Fund is used to account for taxes received in lieu of property taxes for property owned in the County by the Federal Government.

County Grant Fund - The County Grant Fund is used to account for monies received to be spent on a specified purpose.

Lincoln County Water District Water Resources Fund - The Lincoln County Water District Water Resources Fund is used to account for general activities of the District, a blended component unit of the government.

Lincoln County Land Act Special Use Fund - The Lincoln County Land Act Special Use Fund is used to account for land sale monies to be spent per ordinances.

The County reports the following major enterprise fund:

Detention Center Fund - The Detention Center fund is used to account for the activities of the Lincoln County Detention Center, a blended component unit of the County.

Pioche Public Utility Sewer Fund - The Pioche Public Utility Sewer fund is used to account for the charges for providing sewer service in Pioche, Nevada.

Additionally, the County reports the following fiduciary fund:

Agency Funds – The Agency Fund is used to account for assets held by the County in an agency capacity for others and cannot be used to support the government's own programs.

During the course of operations the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in the governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e. enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. Basis of Presentation - Fund Financial Statements (Continued)

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

6. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Gross receipts and sales taxes are considered "measurable" when in the hands of intermediary collecting governments and are then recognized as revenue. The government considers revenues to be "available" if they are collected within 60 days of the end of the current fiscal period. Anticipated refunds of taxes are recorded as liabilities and reductions of revenue when they are measurable and the payment seems certain. In general, expenditures are recorded when liabilities are incurred. The exception to this rule is that principal and interest on debt service, as well as liabilities related to compensated absences and claims and judgments, are recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The major revenue sources of the County include consolidated taxes (including sales tax), fuel taxes, intergovernmental revenue, and property taxes. Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). All other revenue items are considered to be measurable and available only when cash is received by the County.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Pioche Public Utility funds are customer charges. Operating revenues for the Building fund come from charges for services for building inspections and permits. The Detention Center receives revenue for housing prisoners of other governments. Expenses are those required to provide the service. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for governmental funds.

a. The statutes provide for the following timetable in adoption of budgets:

- (i) Before April 15, County submits to the Nevada State Department of Taxation a tentative budget for the upcoming fiscal year. The tentative budget includes proposed expenditures and the means to finance them.
- (ii) Before the third Monday in May, a minimum of seven days' notice of public hearing on the final budget is published in a local newspaper.
- (iii) On or before June 1, the County Commissioners must adopt a final budget.

b. NRS 354.598005 (1) - provides that the County Commissioners may augment the budget at any time by a majority vote of the Commissioners providing the Commissioners publish notice of its intention to act in a newspaper of general circulation in the county at least three days before the date set for adoption of the resolution.

c. Nevada Revised Statute 354.598005 (5) allows appropriations to be transferred between functions, funds or contingency accounts if such a transfer does not increase the total appropriation for any fiscal year and is not in conflict with other statutory provisions. The County Auditor may transfer appropriations within any function. The County Auditor may also transfer appropriations between functions or programs within a fund, if the County Commissioners are advised of the action at the next regular meeting; and the action is recorded in the official minutes of the meeting. The County Commissioners may authorize the transfer of appropriations between funds or from the contingency account, if, the County Commissioners announce the transfer of appropriations at a regularly scheduled meeting and sets forth the exact amounts to be transferred and the accounts, functions, programs and funds affected. The County Commissioners must also set forth its reasons for the transfer; and the action must be recorded in the official minutes of the meeting.

d. Statutory regulations require budget control to be exercised at the function level within the funds.

e. The following funds were augmented during the year: General, Federal In Lieu, Road, Museum, Transportation, Senior Nutrition, Library, Alamo Clinic, Genetic Marker, Airport, Count Grants, Nuclear Waste and Alamo Town.

f. Generally, budgets for all funds are adopted in accordance with generally accepted accounting principles. Budgeted amounts reflected in the accompanying financial statements recognize amendments made during the year.

g. All appropriations lapse at the end of the fiscal year.

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

a. Cash and Cash Equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition.

Cash includes cash deposited in interest-bearing accounts at banks and cash in the custody of fiscal agents of the County.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

b. Investments

Investments are stated at fair value on the Balance Sheet. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale. Changes in the fair value of County investments are part of investment income which is included in revenue from local sources on the Statement of Activities and the Statement of Revenues, Expenditures, and Changes in Fund Balances of governmental funds. (See Note D1)

Nevada Revised Statutes authorize the County to invest in:

1. Obligations of the U.S. Treasury and U.S. Agencies in which the maturity dates do not exceed more than 10 years from the date of purchase.
2. Negotiable certificates of deposit issued by commercial banks or insured savings and loan associations (those over \$250,000 must be fully collateralized).
3. Negotiable notes or short-term negotiable bonds issued by local governments within Nevada.
4. Eligible bankers' acceptances that do not exceed 270 days maturity and do not exceed 20 percent of the portfolio.
5. Commercial paper with a rating of A-1 or P-1 that does not exceed 240 days maturity and does not exceed 20 percent of the portfolio.
6. The State of Nevada's Local Government Investment Pool.
7. Repurchase agreements that are collateralized at 102 percent of the repurchase price and do not exceed 90 days maturity. Securities used for collateral must meet the criteria listed above.
8. Money market mutual funds which are rated as "AAA" or its equivalent and invest only in securities issued by the Federal Government, U.S. Agencies, or repurchase agreements fully collateralized by such securities.

c. Property Tax

Taxes on real property are levied on July 1st of each year and are due on the third Monday in July. They can be paid in quarterly installments in August, October, January and March. In the event of nonpayment, the County Treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties, and costs, together with interest at a rate of 10 percent per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two year redemption period, the County Treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the County Treasurer may sell the property to satisfy the tax lien.

Article X, Section 2 of the Constitution of the State of Nevada limits the total taxes levied by all overlapping governmental units within the boundaries of any County (i.e., the County, the County School District, the State and any other City, Town, or Special District) to an amount not to exceed \$5 per \$100 of assessed valuation of the property being taxed.

The Nevada Legislature enacted provisions whereby the combined overlapping tax rate was limited to \$3.64 per \$100 of assessed valuation.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

d. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

e. Restricted Assets

Certain cash assets of the Enterprise Funds are from revenue for specific use by the Enterprise Funds and are classified as restricted assets because their use is restricted by agreement. (See Note D6)

f. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial individual cost of more than \$500 and an estimated useful life in excess of one year.

If purchased or constructed, capital assets are recorded at historical cost or estimated historical cost and updated for additions and retirements during the year. Donated capital assets are valued at their estimated value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Land and construction in progress are not depreciated. The other property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Capital Assets</u>	<u>Years</u>
Vehicles	10
Equipment	5-20
Buildings and Improvements	20-50
Infrastructure	25-50

The County is required to report and depreciate new infrastructure assets. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. Neither their historical cost nor related depreciation has historically been reported in the financial statements. The County is required to capitalize and report its major general infrastructure assets acquired in fiscal years ending after June 30, 1980. In addition, infrastructure assets acquired before June 30, 1980, that received significant reconstruction must be capitalized. Lincoln County has no infrastructure assets that were acquired or reconstructed that must be capitalized.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

g. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows include the County's pension related contributions subsequent to the measurement date but before the end of the fiscal year and changes in proportion of the District's contributions to the District's proportionate contributions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source, property taxes. This amount is deferred and recognized as an inflow or resources in the period that the amounts become available.

Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. The difference between projected and actual experience and investment earnings are related to the deferred inflows of pensions and the calculation of net pension liability reported on the statement of net position.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement System of Nevada (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

h. Governmental Fund Balances:

In the governmental fund financial statements, fund balances are classified as follows:

- (i) **Nonspendable** – Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact, such as inventories and prepaids.
- (ii) **Restricted** – Amounts that can be spent only for a specific purpose because of the state or federal laws, or externally imposed conditions by grantors or creditors.
- (iii) **Committed** – These amounts can only be used for specific purposes as set forth by the County Commissioners. The Commissioners must take formal action (vote approval by the majority), in order to establish an ending fund balance commitment for any specific purpose. Formal Commission action is also required to modify or rescind an established commitment. To be reported as committed, amounts cannot be used for any other purpose unless the Commission takes the same highest level action to remove or change the constraint.

NOTES TO THE FINANCIAL STATEMENTS (Continued)
JUNE 30, 2015

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

h. Governmental Fund Balances (Continued):

- (iv) **Assigned** – Assignments are neither restrictions nor commitments and represent the County’s intent to use funds for a specific purpose. These assignments, however, are not legally binding and are meant to reflect intended future use of the County’s ending fund balance. Intent can be expressed by the County Commissioners or by the County Auditor.
- (v) **Unassigned** – All amounts not included in other classifications.

i. Fund Balance Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance.) When fund balance resources are available for a specific purpose in more than one classification, it is the County’s policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

j. Net Position Policies

In the government-wide statements, net position on the Statement of Net Position includes the following:

(i) Invested in Capital Assets, net of Related Debt

This is the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction or improvement of those assets.

(ii) Restricted Assets

This is the component of net position that reports the constraints placed on the use of assets by either external parties and/or enabling legislation.

(iii) Unrestricted

This is the component of net position that is the difference between the assets and liabilities not reported in Invested in Capital Assets, Net of Related Debt and Restricted Assets.

k. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

l. Comparative Data/Reclassifications

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the County's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

m. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

n. Budgetary Stabilization

It is the County's policy to determine the balance or reserve as reasonable and necessary to carry out the purposes of the stabilization fund on a yearly basis. NRS 354.6115 authorizes the creation of a fund to stabilize operations of local governments and mitigate effects of natural disaster. The intent of this policy is to include a portion of the General Fund budgeted ending fund balance that will be restricted to stabilization pursuant to NRS 354.6115. Fund balance that is restricted to stabilization can be used after approval by the board of County Commissioners when total actual revenue falls short of the total anticipated revenue in the General Fund for the fiscal year in which the County uses the money.

9. Revenues and Expenditures/Expenses

a. Compensated Absences

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the government-wide financial statements. No expenditure is reported for these amounts in the fund financial statements. (See Note D7) Vacation leave and sick leave included in accrued liabilities and recorded as expenditures in governmental fund types is the amount normally liquidated from "available spendable resources."

In proprietary funds, compensated absences are recorded when the liabilities are incurred. In governmental funds, the current portion is recorded as payroll expenditure. The estimated long-term liability for compensated absences is accounted for in the government-wide financial statements.

NOTES TO THE FINANCIAL STATEMENTS (Continued)
JUNE 30, 2015

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Revenues and Expenditures/Expenses (Continued)

b. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

c. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund, transit fund, and internal service funds are charges to customers for sales and services. The water fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of certain differences between the governmental funds Balance Sheet and the government-wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between fund balances - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of the reconciliation explains that "certain liabilities (such as bonds payable and capital lease payable) are not reported in the Governmental funds financial statements because they are not due and payable, but they are presented as liabilities in the statement of net position." The details of this difference are as follows:

Interest payable	\$ (1,168)
Capital lease payable	(324,627)
Notes payable	(211,043)
Compensated absences	<u>(368,210)</u>
Net adjustment to reduce fund balance - total governmental funds to arrive at net position - governmental activities	\$ <u><u>(905,048)</u></u>

NOTE B. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

2. Explanation of certain differences between the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the government-wide Statement of Activities

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide Statement of Activities. One element of that reconciliation explains that “Capital outlays to purchase or build capital assets are reported in Governmental Funds financial statements as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities.” The details of this difference are as follows:

Capital outlay	\$ 2,500,300
Disposal of fixed assets	(34,984)
Depreciation expense	<u>(1,196,375)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	<u>\$ 1,268,941</u>

Another element of that reconciliation states that, “The issuance of long-term debt (i.e., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on Net Position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and other similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.” The details of this difference are as follows:

General obligation debt principal payments	\$ 383,801
Debt issuance	<u>(579,210)</u>
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	<u>\$ (195,409)</u>

Another element of that reconciliation states that “Generally expenditures recognized in the fund financial statements are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when incurred.” The details of this difference are as follows:

Accrued interest	\$ 2,521
Compensated absences	<u>(54,102)</u>
Net adjustment to increase net change in fund balances – governmental funds to arrive at change in net position of governmental activities	<u>\$ (51,581)</u>

NOTE C. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

1. Compliance and Accountability

The County conformed to significant statutory requirements regarding financial administration during the year.

Per NRS 354.626, the County is required to report expenditures that exceeded budgeted appropriations at the function level for the General Fund, Special Revenue Funds, and Capital Project Funds. Enterprise funds may not exceed budget appropriations at the fund level. For the year ending June 30, 2015, there were no expenditures over appropriations that are required to be reported.

2. Deficit Fund Balance/Net Position

Detention Center Enterprise Fund	\$1,163,181
Building Department Enterprise Fund	\$ 42,536

The deficit net position of the Detention Center and Building Department Enterprise funds are due to the implementation of GASB 68, which requires the County to record its proportionate share of the net pension liability of the Public Employees' Retirement System of the State of Nevada. See Notes D-13 and D-16 of the financial statement.

NOTE D. DETAILED NOTES ON ALL FUNDS

1. Pooled Cash and Investments

The County maintains a cash and investment pool that is available for use by all funds under the custody of the County Treasurer. At June 30, 2015, this pool is displayed by the statement of net position and major and other governmental funds on the governmental funds balance sheet as "Pooled Cash and Investments."

A reconciliation of cash and investments as shown in the Statement of Net Position is as follows:

Cash in the hands of officers	\$ 334,352
Carrying amount of deposits	7,514,232
Fair value of investments	<u>17,693,834</u>
Total	<u>\$25,542,418</u>

A reconciliation of cash and investments as for the County is as follows:

Government-wide pooled cash and investments	\$21,714,008
Restricted cash	30,402
Agency fund cash	<u>3,798,008</u>
Total	<u>\$25,542,418</u>

Except for financial reporting purposes, the cash balances of \$3,798,008 in the Agency Funds are not normally considered part of the County's pooled cash and investments. These amounts represent cash held in an agency capacity by the County and cannot be used in the County's normal operations.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

1. Pooled Cash and Investments (Continued)

The cash and investment pool is available for use by all funds of the County. Cash and investments under the custody of the County Treasurer are invested as a pool. The County Treasurer may invest the money of the investment pool in investments which have been authorized as investments by Nevada Revised Statutes. (See Note A8b)

Investment income is apportioned to the funds within the pool monthly based on the average balance invested for the month.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool.

Cash and investment are subject to the following risks:

Interest Rate Risk: Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from the rise in interest rates. Nevada Revised Statutes limits bankers' acceptances to 180 days of maturities, repurchase agreements to 90 days, U.S. Treasuries and Agencies to less than 10 years, and commercial paper to 270 days maturity. The approximate weighted average maturity of investments in the Lincoln County Treasurer's investment pool was 2.36 years.

As of June 30, 2015, monies held in the Lincoln County Treasurer's cash and investment pool are categorized as follows:

Investment Type	Investment Maturities (In Years)			
	Fair Value	Less than 1	1-5	6-10
U.S. Government and Agencies:				
U.S. Treasury note	\$ 4,174,801	\$ 0	\$ 4,174,801	\$ 0

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation and is a function of the credit quality ratings of its investments. The Nevada Revised Statutes, limits investments instruments by their credit risk (Note A8a). The State of Nevada Local Government Investment Pool is an unrated external investment pool.

As of June 30, 2015, monies held in the Lincoln County Treasurer’s cash and investment pool are categorized as follows:

<u>Investment Type</u>	<u>Quality Ratings by Moody’s</u>		
	<u>Fair Value</u>	<u>Aaa</u>	<u>N/A</u>
U.S. Government and Agencies:			
U.S. Treasury note	\$ 4,174,801	\$ 4,174,801	\$ 0

Total Investments	<u>\$17,693,834</u>	<u>\$ 16,441,429</u>	<u>\$ 1,252,405</u>

Custodial Credit Risk: Custodial credit risk is the risk that in the event of a bank or brokerage failure, the County’s deposits may not be returned. The County’s bank deposits are generally covered by FDIC insurance and are collateralized by the Office of the State Treasurer/Nevada Collateral Pool. At year-end, the County’s carrying amount of deposits was \$7,514,232 and the bank balance was \$7,630,169. Of the bank balance, \$500,000 was covered by federal depository insurance. Of the remaining balance, \$7,130,169 was collateralized with securities held by the Nevada Pooled Collateral Program.

Concentrations of Credit Risk: Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government’s investment in a single issuer. Investments with a single issuer within the Lincoln County Treasurer Cash and investment pool that represent five percent of more of total investments as of June 30, 2015 are as follows:

Federal Farm Credit Bank (FFCB)	6.29%
Federal Home Loan Banks (FHLB)	10.21%
Federal Home Loan Mortgage Corporation (FHLMC)	18.62%
Federal National Mortgage Association (FNMA)	23.53%

7. Long-term Debt

Governmental Type Activities:

Capital Leases

- a. The County has entered into lease agreements for 3 motor graders for the road department for \$579,210. The lease has been classified as a capital lease according to generally accepted accounting principles. The lease contains non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The motor graders have an eight-year estimated useful life. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2015, were as follows:

<u>Year Ending June 30,</u>	<u>Remaining Payments</u>	<u>Amount Representing Interest</u>	<u>Present Value of Net Minimum Lease Payments</u>

- b. The County entered into a lease agreement for 4 public safety vehicles for \$99,100. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This year, \$12,452 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. The lease was paid in full as of June 30, 2015.
- c. The County entered into a lease agreement for 3 public safety vehicles for \$85,004. The leases have been classified as capital leases according to generally accepted accounting principles. The leases contain non-funding clauses whereby the leases are terminated without penalty should the County fail in a budget year to appropriate money for the payment. The vehicles have a ten-year estimated useful life. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date. Business-Type Activities:

Revenue Bonds The County issues revenue bonds to provide funds for the acquisition and construction of utility capital assets. Revenue bonds have been issued for the business-type activities. Revenue bonds are an obligation of the enterprise utility funds for which the capital assets were acquired or constructed. Revenue bonds outstanding at June 30, 2015 are as follows:

- a. **\$210,000, 2007 Pioche Town Sewer bond** is payable to the U.S. Department of Agriculture-Rural Development. The bond is payable in semi-annual payments of \$5,584 including interest. The interest rate is 4.375%. The bond agreement requires the County to establish and fund monthly a debt service reserve fund equal to 10% of the semi-annual payment each month over the life of the loan until they accumulate one annual installment. This reserve fund can be used for emergency maintenance and repairs, and debt repayment should the need arise. The required reserve as of June 30, 2015, is \$9,654. The balance in the reserve account was \$9,654 as of June 30, 2015 (See Not D-6). The outstanding balance of bonds payable at June 30, 2015, was \$192,621.

Annual debt service requirements to maturity for the revenue bond are as follows:

8. Interfund Transfers

Interfund operating transfers are made from one fund to another fund to support expenditures in accordance with the authority established for the individual funds. Transfers between fund types during the year ended June 30, 2015, were:

	Total Transfers In	Transfers Out					
		General	Road	Federal In Lieu	Pioche Public Utility Sewer	Nonmajor Special Revenue	Nonmajor Capital Projects
General Fund	\$ 76,700	\$ -	\$ -	\$ 76,700	\$ -	\$ -	\$ -

Following are explanation of certain interfund transfers of significance to the County:

The General Fund transferred money to the following funds: China Springs \$8,000 and Airport \$1,365. These budgeted transfers were made to help cover costs of the funds.

The Federal in Lieu Fund transferred money to the following funds: General Fund \$76,700, these budgeted transfers were made to help cover costs of the fund and Senior Nutrition \$13,909, as a grant match.

The Pioche Public Utility transferred money to the Pioche Town Capital Projects Fund to repay money they spent on a sewer project.

The Capital Projects Fund transferred money to the following capital projects funds: \$86,000 to the Vehicle Capital Projects for assistance with capital asset purchases; \$2,536 to Alamo Town Capital Projects Fund, \$3,498 to the Pioche Town Capital Projects Fund, and \$5,073 to the Panaca Town Capital Projects Fund for distribution of property taxes collected pursuant to Nevada Revised Statutes 354.59815.

9. Unearned Revenue

Grants

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period and also in connection with the resources that have been received but not yet earned. At June 30, 2015 the County had the following unearned revenues:

Qualifying expenditures for expenditure-driven grants have not occurred before June 30, 2015.

Federal in Lieu	County Grant	Other Governmental	Total
<u>\$ 791,551</u>	<u>\$ 182,200</u>	<u>\$ 144,157</u>	<u>\$ 1,117,908</u>

Grant funds which have unspent interest as of June 30, 2015, are required by granting agencies to defer the revenues. The following interest has been recorded as unearned revenue.

<u>Nuclear Waste</u>
<u>\$ 169,690</u>

10. Unavailable Revenue

Delinquent taxes receivable not collected within sixty days after year-end are recorded as deferred inflows of resources as they are not available to pay liabilities of the current period. At June 30, 2015 the County had the following unavailable revenues:

<u>General</u>	<u>Other Governmental</u>	<u>Total</u>
\$ 25,195	\$ 9,860	\$ 35,055

11. Risk Management

Property, Casualty, Crime and Machinery Insurance

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County joined together with other local governments throughout the State of Nevada to create a pool under the Nevada Interlocal Cooperation Act. The Nevada Public Agency Insurance Pool (NPAIP) is a public entity risk pool currently operating as a common risk management and insurance program for members. The County pays an annual premium and specific deductibles, as necessary, to NPAIP for its general insurance coverage. NPAIP is considered a self-sustaining risk pool that will provide liability coverage for its members up to \$10,000,000 per event and a \$10,000,000 annual aggregate per member. Property, crime and equipment breakdown coverage is provided to its members up to \$300,000,000 per loss with various sub-limits established for earthquake, flood, equipment breakdown and money and securities. As a participatory member the maintenance deductible is \$2,000 for each insured event.

The County is self-insured for unemployment claims. Payments are made from the general fund to cover claims.

The County participates in the Public Agency Compensation Trust (PACT). Premiums paid to PACT cover workers' compensation claims against the County. Premiums are based on a percentage of wages paid.

The County carries commercial insurance for all other risks of loss including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

12. Contingent Liabilities

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies, principally the Federal Government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Litigation

The County is a defendant in a lawsuit. Although the outcome of this lawsuit is not presently determinable, it is the opinion of the County's counsel that resolution of this matter will not have a material adverse effect on the financial condition of the County.

13. Defined Benefit Pension Plan

Plan Description. All half time and greater County employees are provided pension benefits through the Public Employees Retirement System of the State of Nevada (PERS), a cost sharing multiple-employer, defined benefit plan administered by the Public Employees Retirement System of the State of Nevada. PERS provides retirement benefits, disability benefits, and death benefits, including annual cost of living adjustments, to plan members and their beneficiaries. NRS Chapter 286 establishes the benefit provisions provided to the participants of PERS. These benefit provisions may only be amended through legislation. The Public Employees Retirement System of the State of Nevada issues a publicly available financial report that includes financial statements and required supplementary information for PERS that can be obtained at www.nvpers.org under Quick Links — Publications.

Benefits Provided. Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits. Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% multiplier. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death. Post-retirement increases are provided by authority of NRS 286.575 - .579.

Regular members are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service, or at any age with thirty years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with thirty years of service.

Police/Fire members are eligible for retirement at age 65 with five years of service, at age 55 with ten years of service, at age 50 with twenty years of service, or at any age with twenty-five years of service. Police/Fire members entering the System on or after January 1, 2010, are eligible for retirement at 65 with five years of service, or age 60 with ten years of service, or age 50 with twenty years of service, or at any age with thirty years of service. Only service performed in a position as a police officer or firefighter may be counted towards to eligibility for retirement as Police/Fire accredited service.

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

Contributions: Benefits for plan members are funded under the employer pay contribution plan. The County is required to contribute all amounts due under the plan. PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions actually made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450. The County's required contribution rates for the year ending June 30, 2015 were 40.50% for police and fire; 25.75% for regular employees; 41.0% for judge; and 13.25% employee/employer match. The County has fully funded the amounts due for the year ending June 30, 2015 of \$1,232,695.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contribution requirement as a percentage of salary.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the County reported a liability of \$8,866,756 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their combined employer and member contributions relative to the total combined employer and member contributions for all employers for the period ended June 30, 2014. At June 30, 2014, the County's proportion was 0.08508 percent.

For the year ended June 30, 2015, the County recognized pension expense of \$1,162,922. At June 30, 2015, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	\$ 0	\$ 424,323
Net difference between projected and actual earnings on pension plan investments	0	1,862,382
Changes in proportion and differences between County contributions and proportionate share of contributions	0	32,483

Total	\$ 1,232,695	\$ 2,319,188

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

\$1,232,695 was reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

13. Defined Benefit Pension Plan (Continued)

Actuarial Assumptions: The System's net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	3.50%
Payroll Growth	5.00%, including inflation
Investment Rate of Return	8.00%
Productivity pay increase	0.75%
Projected Salary increases	Regular: 4.60% to 9.75%, depending on service Police/Fire: 5.25% to 14.5%, depending on service Rates include inflation and productivity increases
Consumer Price Index	3.50%

Mortality rates were based on the RP-2000 Combined Healthy Table for Males and Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

Actuarial assumptions used in the June 30, 2014 valuation were based on the results of the experience review completed in 2013. The System's policies which determine the investment portfolio target asset allocation are established by the Public Employees' Retirement Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The following was the Board adopted policy target asset allocation as of June 30, 2014:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Geometric Expected Real Rate of Return*</u>
Domestic Equity	42%	5.50%
International Equity	18%	5.75%
Domestic Fixed	30%	0.25%
Private Markets	10%	6.80%

*As of June 30, 2014, PERS' long-term inflation assumption was 3.5%

Discount Rate. The discount rate used to measure the total pension liability was 8.00% as of June 30, 2014. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position at June 30, 2014, was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2014.

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the PERS Comprehensive Annual Financial Report, available on the PERS website.

Pension contributions payable. The County’s accrued contributions payable at June 30, 2015 were \$117,277.

14. Post-Employment Healthcare Plan

Plan Description: The County subsidizes eligible retirees’ contributions to the Public Employees’ Benefits Plan (PEBP), an agent multiple-employer defined benefit postemployment health care plan administered by the State of Nevada. The plan provides medical, vision, dental and life insurance benefits to eligible retired County employees and beneficiaries. NRS 287.041 assigns the authority to establish and amend benefit provisions to the PEBP nine-member board of trustees. The plan is now closed to current County retirees, however, County employees who previously met the eligibility requirement for retirement within the Nevada Public Employee Retirement System had the option upon retirement to enroll in coverage under the PEBP and the subsidy provided by the County was determined by their number of years of service. The PEBP issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Employee’s Benefits Program, 901 S. Stewart Street, Suite 1001, Carson City, NV 89701, by calling (775) 684-7000, or by accessing the website at www.pebp.state.nv.us/informed/financial.htm.

Funding Policy: NRS 287.046 establishes the subsidies to be contributed toward the premium costs of the eligible retired County employees. Plan members receiving benefits have their monthly contributions deducted from their pension checks based on the health plan chosen by the retiree as reduced by the amount of the subsidy. Pre-Medicare retirees qualify for a subsidy of \$115.55 at five years of service and \$635.35 at 20 years of service with incremental increases for each year of service between. All Medicare eligible retirees participate in a Medicare Exchange with PEBP providing a service related contribution to a Health Reimbursement Arrangement (HRA) equal to \$11 per month, per year of service (maximum \$220 per month). The contribution requirements of plan members and the County are established and amended by the PEBP board of trustees. As a participating employer, the County is billed for the subsidy on a monthly basis and is legally required under NRS 287.023 to provide for it.

14. Post-Employment Healthcare Plan (Continued)

For fiscal year 2015, the County contributed \$50,969 to the plan for current premiums. The County did not prefund any future benefits.

Annual OPEB Cost and Net OPEB Obligation The County's annual other post-employment benefit (OPEB) cost (expense) for the plan is calculated based on the annual required contribution of the employer (ARC). The County has elected to calculate the ARC and related information using the alternative measurement method permitted by GASB statement 45 for employers in plans of fewer than one hundred total plan members. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded liabilities (or funding excess) over a period not to exceed thirty years.

In fiscal year 2015, the County's annual OPEB cost (expense) was \$50,969 for the PEBP. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2015, are as follows:

Fiscal Year Ended	Annual OPEB Cost Contributed	Employer Contributions	% of Annual OPEB Expense Contributed	Net OPEB Obligation
6/30/2013	61,150	89,867	147%	14,863
6/30/2014	60,591	75,454	146%	0
6/30/2015	50,969	50,969	100%	0

The following table shows the components of the County's annual OPEB cost for the past three years, the amount actually contributed to the plan, and changes in the County's net OPEB obligation to the PEBP:

	Fiscal Year 2015	Fiscal Year 2014	Fiscal Year 2013
Annual Required Contribution	\$ 40,180	\$ 49,630	\$ 58,798

Increase (decrease) in net OPEB	0	(14,863)	(28,717)
Net OPEB obligation - beginning of the year	<u>0</u>	<u>14,863</u>	<u>43,580</u>
Net OPEB obligation - end of year	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 14,863</u>

Funded Status and Funding Progress As of June, 30, 2015, the actuarial accrued liability (AAL) for benefits was \$722,587, and having not funded the obligation, the County has no associated assets to offset this liability. Because of this, the unfunded actuarial accrued liability (UAAL) is equal to the AAL. PEBP is closed to new County participants as of November 1, 2008; therefore, covered payroll is zero.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTE D. DETAILED NOTES ON ALL FUNDS (Continued)

14. Post-Employment Healthcare Plan (Continued)

Methods and Assumptions Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following simplifying assumptions were made:

Retirement age for active employees-Retirement age was not considered, as the County has terminated the benefit for future retirees.

Mortality- Life expectancies were based on mortality tables from the Period Life Table published by the Social Security Administration.

Turnover-The turnover of active employees was not addressed due to the County's policy change, eliminating the benefit for future retirees.

Healthcare cost trend rate- The expected rate of increase in healthcare insurance premiums as based on an initial rate of 7.5%, reduced to an ultimate rate of 5% after seven years.

Health insurance premiums-The insurance premiums for retirees were used as the basis for calculation of the present value of total benefits to be paid.

Based on the historical and expected returns, a discount rate of 4 percent was used.

Because of changes to state law, as of September 1, 2008, the plan was no longer available to those actively employed past that date. As a result, the County expects the liability to begin to decrease and eventually disappear over the life of the amortization period. The unfunded actuarial accrued liability is being amortized over 30 years. The remaining amortization period at June 30, 2015, was twenty-four years.

15. Water Sales

The Water District has entered into a water delivery teaming agreement. The purpose of the agreement is to develop a water infrastructure and provide wholesale water to adjoining water districts and/or developers who require water. Investment to develop the water sources are funded by the partner. The Water District is not required to provide funding. Should projects fail, the Water District has no liability for costs incurred by the partner. If the projects are completed and revenues are generated from the sale of water, revenues collected will be applied to the investment of the partner until paid in full for the successful projects. After payment of project expenditures, the Water District will be entitled to 50 percent of remaining monies. Should the Water District withdraw from the agreement, the Water District will be required to reimburse the partner's investment costs. Revenues, if any, from water sales are recorded in the Lincoln County Water District funds.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2014

Note 1 – Explanation of Differences between General Fund (Budgetary Basis) and General Fund (GAAP Basis)

The accompanying Reconciliation of the General Fund (Budgetary Basis) to the General Fund (GAAP Basis) presents balances combined for external financial reporting purposes.

With the implementation of GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the budgetary basis of accounting for the General Fund differs from generally accepted accounting principles (GAAP).

Guidance in GASB Statement 54 changed the definition of Special Revenue Funds for financial reporting purposes. Pursuant to statute, budget comparisons are required using the budget adopted. Six internally reported special revenue funds of the County (Stabilization, Planning, Rachel Jones Memorial Cemetery, Thompson Opera House, Flood Control, and Property Management) are combined with the General Fund for external reporting purposes to conform to generally accepted accounting principles.

LINCOLN COUNTY, NEVADA
NOTES TO SCHEDULE OF EXPENDITURE OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2015

NOTE 1 - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Lincoln County, Nevada for the year ending June 30, 2015. The information in the schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of State, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented on, or used in, the preparation of the basic financial statements. Because the Schedule presents only a selected portion of the operations of Lincoln County, Nevada, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Lincoln County, Nevada.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- (A) Expenditures reported on the Schedule are reported on the modified accrual basis of accounting.
- (B) Pass-through entity identifying numbers are presented where available.

NOTE 3 - FOOD DISTRIBUTION

Non-monetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2015 the County had food commodities totaling \$0.00 in inventory.

NOTE 4 - U.S. DEPARTMENT OF AGRICULTURE

The County issued a single registered Water Revenue bond purchased by the U.S. Department of Agriculture (CFDA 10.760). The following is a summary of activity for the year:

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nevada (the County), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued my report thereon dated November 30, 2015.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, I do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

Honorable Board of County Commissioners
Lincoln County, Nevada
Pioche, Nevada

Report on Compliance for Each Major Federal Program

I have audited Lincoln County, Nevada's (the County)'s compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2015. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of the County's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In my opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

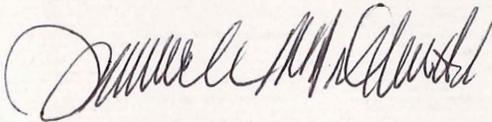

Report on Internal Control over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
