KEEPING THE “HEART” IN YOUR FAVORITE RECIPES
With a few changes, you can keep the heart in family
favorites and add the health. Here’s how:

**Dairy Products**
- Cook with lowfat, fat free, nonfat dry, or evaporated fat
  free milk.
- Bake or cook with 3 egg whites and 1 egg yolk, instead
  of 2 whole eggs. Or use 2 egg whites or 1/4 cup of egg
  substitute, instead of 1 whole egg.

**Spices and Flavorings**
- Use a variety of herbs and spices in place of salt, and
  choose low-sodium bouillon and broths.

**Oils and Butter**
- Use cooking oil spray to lower fat and calories.
- Use a small amount of vegetable oil, instead of lard,
  butter, or other fats that are hard at room temperature.

**Meats and Poultry**
- Choose lean cuts of meat and remove any visible fat.
- Remove skin from chicken and other poultry before cooking.

**Sandwiches and Salads**
- Use fat free or lowfat dressing, yogurt, or mayonnaise.
- For salad dressing, use equal parts water and
  vinegar, and half the oil.

**Soups and Stews**
- Remove fat from homemade broths, soups, and stews by
  preparing them ahead and chilling them. Before reheating,
  lift the hardened fat off the surface.

**Breads**
- Make muffins, quick breads, and biscuits by using no
  more than 1-2 Tbsp of fat for each cup of flour.
- For muffins or quick breads, use 3 ripe, well-mashed bananas,
  instead of 1/3 cup butter or oil. Or, substitute a cup of
  applesauce for a cup of butter, margarine, oil, or shortening.

**Desserts**
- Make a pie crust with only 1/2 cup margarine for every
  2 cups flour. Use soft margarines (liquid or tub types).
- For chocolate desserts, use 3 Tbsp of cocoa for every
  ounce of baking chocolate. If you need to replace the
  fat in chocolate, add up to 1 Tbsp of vegetable oil.
- Make cakes and soft-drop cookies by using no more
  than 2 Tbsp of fat for each cup of flour.
